

# See Clearly. Act Confidently.

Uncover hidden threats and unauthorized activity hiding in your network with Clear NDR<sup>®</sup>

Clear NDR is an open and transparent network threat detection and response (NDR) system that empowers defenders with AI-powered automation and deep network insights to build a more efficient and secure SOC.

Clear NDR is an Open and transparent Network Detection and Response that delivers:

Clear Visibility - Monitor activities across your entire attack surface

Clear Detection - Multi-layer, transparent detections you can understand

Clear Evidence - Everything you need to quickly resolve the incident

Clear Response - The confidence you need to automate your response

## A Force Multiplier for the AI-Powered Autonomous SOC

### Clear NDR drives automation directly

Clear NDR automates your threat response with high-fidelity compromise and policy violation declarations based on multiple detection mechanisms - artificial intelligence, machine learning, advanced heuristics, traditional signatures, and IoCs

### Clear NDR feeds network data to AI-powered SIEM

Clear NDR provides the industry's richest source of network telemetry to combine with endpoint and other data at your AI-powered SIEM for a complete picture of your enterprise activity and advanced AI-enabled threat detection and response

# Stamus Networks – the global leader in open and transparent enterprise network security

Stamus Networks® is the global leader in Suricata-based network security and the creator of the innovative Clear NDR system. Providing superior network intelligence that empowers security AI platforms, Clear NDR closes visibility gaps and reduces alert fatigue, transforming raw network traffic into actionable security insights with unmatched transparency, customization, and effectiveness. Trusted by leading financial institutions, government agencies, and participants in NATO's largest cybersecurity exercises, Stamus Networks delivers proven, high-performance network detection and response solutions.
