Stamus Networks to Share Suricata Expertise and Insights in Five Sessions at Suricon 2021

The Company's Experts Are Contributing to Nearly 20% of the Technical Content at the Event

INDIANAPOLIS, USA and PARIS, FRANCE, October 19, 2021 – [Stamus Networks](#), a global provider of high-performance network threat detection and response systems, today announced its extensive participation in this [Suricon 2021](#), the annual conference dedicated to the [Suricata](#) open source network security engine. Two of the company's founders and technical leaders, Chief Technology Officer, Éric Leblond and Chief Strategy Officer, Peter Manev will combine to present four technical sessions and one two-day advanced training workshop. All sessions are virtual.

"Suricata is embedded in our products and in our company's DNA," said Ken Gramley, CEO of Stamus Networks. "We are proud to support Suricon this year, both as sponsors and through the efforts of our team. Éric and Peter are two of the world's most well-respected Suricata developers and experts, and we at Stamus Networks are thrilled to share their knowledge with the community."

The following is a complete list of the events:

- *[Advanced Deployment & Configuration with Suricata](#)*
  18-19 October 2021 | 2-day training | Éric Leblond and Peter Manev

- *[The Art of Suricata QA GitLab Automation](#)*
  20 October 2021 | 11:45 am – 12:15 pm | Peter Manev and Corey Thomas (OISF QA engineer)

- *[New for Suricata 7: Conditional PCAP](#)*
  20 October 2021 | 3:30 pm – 4:00 pm | Éric Leblond

- *[Unleash Suricata Superpowers with a Splunk App](#)*
  21 October 2021 | 1:45 pm – 2:30 pm | Éric Leblond

- *[Efficient Suricata: Migrating from Millions of Events to Manageable Insights](#)*
  21 October 2021 | 11:15 am – 11:45 am | Éric Leblond and Peter Manev

About Stamus Networks
Stamus Networks believes in a world where defenders are heroes, and a future where those they protect remain safe. As organizations face threats from well-funded adversaries, we relentlessly pursue solutions that make the defender's job easier and more impactful. A global provider of high-performance network-based threat detection and response systems, Stamus Networks helps enterprise security teams know more, respond sooner and mitigate their risk with insights gathered from cloud and on-premise network activity. Our solutions are advanced network detection and response systems that expose serious and imminent threats to critical assets and empower rapid response.
