

Stamus Networks Announces new Vice President of Finance

Ronda Schwarzkopf will lead all financial operations and planning.

INDIANAPOLIS, USA and PARIS, FRANCE, September 23, 2020 – [Stamus Networks](#), a fast-growing cybersecurity software company, today announced it has hired Ronda Schwarzkopf to lead its financial operations, including strategic planning, budgeting, accounting, reporting, and auditing.

“After securing our first round of financing earlier this year, it was crucial that we bring on board a veteran financial professional to help guide Stamus Networks through our next phase of growth,” said Ken Gramley, CEO of Stamus Networks. “Ronda comes to us with a wealth of experience helping young technology companies grow into industry leaders and has already proven to be a valuable addition to our executive team. We are extremely excited to have her join us.”

Schwarzkopf has over 15 years of experience in accounting and finance, with 8 years in leadership roles at start-up technology companies. Ronda most recently served as the Director of Finance for 250ok, which was acquired by Validity in 2020. In previous roles, she led financial operations at start-up information technology business, Odyssey Media Group and other organizations.

“I am thrilled to be joining Stamus Networks just as the company is poised to move into this next phase of growth,” said Schwarzkopf. “The Stamus Networks team have already established the company as an essential cybersecurity partner with a number of high-profile global customers. As we make additional investments in our technology and our go-to-market efforts, I look forward to helping ensure continued success.”

About Stamus Networks

Stamus Networks believes cyber security professionals should spend less time pouring through noisy alerts and more time investigating true indicators of compromise (IOC). Founded by the creators of the widely deployed open source [SELKS](#) platform, Stamus Networks offers [Scirius Security Platform](#) solutions that combine real-time network traffic data with enhanced Suricata threat detection and an advanced analytics engine to create an entirely new class of enriched threat hunting solution. With Scirius, you get unprecedented visibility and meaningful insights into your organization’s security posture, giving you the tools to rapidly detect and respond to incidents.
